Wastewater Operator Certification Manual

January 2003

Table of Contents

Part I Wastewater Operator Certification	<u>Page #</u>
Introducing: the Indiana Wastewater Certification Process	1
• Why does my facility have to have a certified operator?	1
• How do I know what classification my facility should be?	1
• How do I know what classification my operator should be?	1
• What are the operator classifications?	1
• How do I become certified?	1
• Am I required to display my certificate at work?	1
• How do I obtain certificates when I am in responsible charge of more than one facility?	2
• How do I obtain replacement certificates and cards?	2
• May I have an extra certificate for my home or office?	2
• What options do I have if the next certification exam is not scheduled for several months?	2
• Do I qualify for a provisional license?	2
➤ To apply for a provisional license	3
• What is reciprocity?	3
➤ To apply for reciprocity	3
➤ How are reciprocity applications reviewed?	3
• Can an operator obtain a Class I or Class A certification based on another license?	3
• What is the Operator-in-Training certification?	3
• What about exam prep courses?	4
• How do I start preparing for a certification exam?	4
• How do I obtain exam reference books?	4
• How much time does it take to prepare for a certification exam?	4
• Is it possible to take more than one exam on test day?	4
• If I registered to sit for an exam, and can't take the test, how do I cancel my registration?	4
• How do I maintain my certification?	4
➤ Renewing your certification card	5
➤ Continuing education contact hours required for each two-year renewal period	5
• If my license expires, can I reinstate it?	5
Continuing Education Requirements for Certified Wastewater Treatment Operators	5
Your Continuing Education Questions Answered	6
• How do I get a course approved for wastewater credit?	6
• Can I reuse a course approval number for the same class in the future?	6
• What types of courses are acceptable for wastewater continuing education hours?	6
➤ Technical matters related directly to wastewater treatment	6
➤ General matters related to the responsibilities of a certified operator	6

• Is there a list of pre-approved courses I can obtain from IDEM?	7
• When I complete a course, who should send my signed credit reporting form to IDEM so I'll receive credit for the course hours?	7
• Can I receive partial credit for a course if I arrive late or leave early?	7
• Can I receive continuing education credits for attending trade association conferences or workshops?	7
About IDEM (www.IN.gov/ide)	7
Note: About IDEM will not be included on certification exams.

Wastewater Operator Certification Manual

Disclaimer

This manual, the Wastewater Operator Certification Manual, is published by the Indiana Department of Environmental Management (IDEM). Every effort has been made to ensure the accuracy and completeness of this manual. However, IDEM makes no guarantee that the manual is completely free of errors or omissions. Please note that this manual is intended solely as guidance for wastewater operators; it is not intended to be a comprehensive reference; rather, it is intended to highlight various state guidelines and practices. It is ultimately the responsibility of the facility to ensure that it complies with all applicable regulations. Owners, operators, and other responsible parties at the facility may wish to seek advice about the circumstances of their facility from independent environmental professionals before making compliance decisions. The publisher, authors, and reviewers make no warranties or representations, expressed or implied, that the use of any information, apparatus, method, or process discussed in this document will not infringe on privately owned rights. The publisher, authors, and reviewers assume no liability for damages resulting from the use of any information, apparatus, method, or process disclosed in this document. The use of any name of a specific brand of products in this manual is intended only as an example and is not an endorsement of that brand by IDEM and should not be construed as such.

Liability Limitations

The information compiled in this manual is being provided by IDEM as a service to Indiana wastewater operators. Although every effort has been made to ensure the accuracy and completeness of this information, the publisher, authors, and reviewers of this publication cannot be held liable for any errors, omissions, or interpretations of regulations described herein. The rules and interpretation may change without individual notice to wastewater operators. The manual does not have the effect of law. Affected persons, including wastewater operators, should use this Manual in conjunction with applicable laws. This manual does not replace applicable laws, and if it conflicts with these laws, the laws shall control. The Indiana Department of Environmental Management may revise, delete or supplement any policy, practice or procedure in this manual at any time at its sole discretion.
